

Macco Organiques Inc.

## ***Macco Organiques Inc. Products Safety and Quality Policy***

In an FSSC and GMP environment, promoting Product Safety and Quality, *Macco Organiques Inc.*'s upper management is committed:

- to supply food additives, pharmaceutical ingredients, and other superior quality products, presenting no risks to users,
- to operate within a secure site following CTPAT guidelines, and according to current GMP requirements,
- to offer customers, within acceptable delays, products complying to standards, recognized regulations, and relevant specifications, in order to maintain and enhance their satisfaction.

*Macco Organiques Inc.*'s upper management is aware of the significant role played by all employees in the achievement of the company's objectives regarding product safety, quality and innovation. Therefore, Macco is committed to promote a culture supporting our product safety and the highest quality standard compliance. Through its Products Safety and Quality Policy, the company provides its employees with the appropriate means (by training, supervision and communication) and empowerment to fulfil their responsibilities and engaging them in the continuous improvement processes.
