Official Statement

Ref # : **Micro E-1**

### *Microbiological / Official Statement*

*Macco Organiques Inc.*'s products, including *calcium acetate*, *calcium propionate*, *potassium acetate*, *potassium benzoate*, *potassium chloride*, *sodium acetate*, *sodium benzoate*, *sodium diacetate* and *sodium propionate*, manufactured at its Salaberry-de-Valleyfield plant, have antimicrobial properties and are produced using chemical processes in a sanitary ISO/GMP/HACCP. Macco's facility is dedicated to the manufacturing of salts with antimicrobial characteristics. The antimicrobial nature of its products, the sanitation program, the extreme pH, high concentrations and/or the elevated temperatures conditions prevailing during manufacturing, are the basis of the aseptic characteristics of Macco's products which conform to FCC and USP requirements.

Macco's manufacturing facility is a FDA bioterrorism, FSMA and C-TPAT registered facility that operates under an ISO Food Safety System FSSC 22000 (GFSI approved) and in compliance with food GMP. Pharmaceutical grade products are manufactured according to cGMPs. Macco's facility is audited yearly.
